MANWELL POWER

# CAPABILITY STATEMENT · OCTOBER 2026

manwellpower.com · quotes@manwellpower.com · +1 (832) 940-9534 · Laredo, Texas

## WHO WE ARE

Manwell Power supplies distribution transformers and medium-voltage switchgear to municipal electric utilities, electric cooperatives, river authorities and public power agencies across the United States and Canada, from our base in Laredo, Texas. We source from established manufacturers in Mexico and Korea, manage import and customs clearance, and deliver to the buyer's specification with the documentation a public purchasing office needs to approve the purchase. We are a new company with one launch product family, one state, and a supply and bids team that answers for every quote.

## CORE COMPETENCIES

- Single-phase distribution transformers, pole-mounted and pad-mounted, 10 to 167 kVA, 7200/12470Y V primary, 120/240 V secondary
- Three-phase pad-mounted transformers, 75 to 2,500 kVA, 15 kV class (95 kV BIL), 208Y/120 V and 480Y/277 V, dead-front, loop-feed or radial
- Medium-voltage switchgear, pad-mounted, air-insulated, dead-front, 15 kV class, 600 A
- Substation and power transformers, 2,500 kVA to 300 MVA, 15 to 345 kV class, quoted with manufacturers with plants in the United States and Canada; field service through our service partner
- Compliance package with every quote: DOE efficiency certification (10 CFR 431), IEEE C57.12.00 / C57.12.34 conformance, per-unit test reports, guaranteed losses, country-of-origin documentation
- Utility approval support: approved-manufacturer lists, material standards, equivalency submittals
- Logistics: import, customs brokerage, Texas warehousing, delivery FOB destination
- Warranty administered in the United States

## HOW WE WORK

- Competitive bids, RFQs and informal quotes with stated price validity
- Annual supply agreements with stock held in Texas against the contract
- Firm pricing windows suited to public procurement
- Net 30 for public buyers
- One point of contact per order, backed by the team behind it

## COMPANY DATA

| | |
|---|---|
| TRADE NAME | Manwell Power |
| LOCATION | Laredo, Texas |
| MARKETS | Municipal utilities, cooperatives and public power agencies, United States and Canada |
| PRODUCTS | Distribution transformers, MV switchgear |
| NAICS | 423610 (primary), 423830, 423690 |
| VENDOR REGISTRATIONS | SAM.gov, Texas CMBL and utility vendor portals in process |
| CONTACT | Supply & Bids · quotes@manwellpower.com · +1 (832) 940-9534 |

## STANDARDS WE WORK TO

| | |
|---|---|
| DOE 10 CFR 431 Subpt. K | Minimum efficiency levels for distribution transformers |
| IEEE C57.12.00 | General requirements, liquid-immersed distribution and power transformers |
| IEEE C57.12.20 | Overhead-type (pole-mounted) distribution transformers |
| IEEE C57.12.25 / .26 | Pad-mounted, compartmental-type distribution transformers |
| IEEE C57.12.34 | Pad-mounted, dead-front distribution transformers, three-phase |
| IEEE C57.12.90 | Test code for liquid-immersed distribution and power transformers |
| ANSI C57.12.28 | Enclosure integrity for pad-mounted equipment |
| IEEE C37.74 | Pad-mounted, dead-front switchgear and fused interrupter switches |
